OBJECTIVE

Results-driven and user-focused Frontend Developer with 3 years of hands-on experience in building scalable, responsive, and reliable web and mobile applications using React and React Native. Skilled in crafting high-performance user interfaces with modern frontend technologies and UI libraries. Strong team player, experienced in Agile environments, and committed to clean code, continuous learning, and delivering high-quality products across the full development lifecycle.

EDUCATION

Bachelor's degree of Management Information Systems, Anadolu University	2020 - now
Associate degree of Computer Programming, Bilecik Seyh Edebali University	2018 - 2020

SKILLS

Frontend Technologies	React, React Native, JavaScript (ES5/ES6+), TypeScript, NextJs, HTML5, CSS3, Bootstrap, Material UI, TailwindCSS
State	Redux, Zustand
Tools	Git, Jira, Confluence, Bitbucket, Postman, Swagger, npm, Yarn
Concepts	REST API - GraphQL Integration, Responsive Design, Component Architecture, Performance Optimization
Development Practices	Agile Methodologies, Clean Code, CI/CD, Code Reviews, Testing
Soft Skills	Problem-Solving, Team Collaboration, Communication, Analytical Thinking, Adaptability
Currently Learning	Swift, Node.js

EXPERIENCE

Front-end Developer (React Native) Sep 2023 - Jun 2025
Youthall *Istanbul, Turkey*

- Developed scalable, high-performing mobile applications for both iOS and Android platforms using React Native.
- Implemented responsive-first UI/UX with strong consideration for performance and accessibility.
- Collaborated with cross-functional teams including product managers and designers to plan and roll out new features.
- Took ownership of infrastructure development and system changes to ensure stability, scalability, and maintainability.
- Provided technical insights and contributed to best practices during code reviews and agile development processes.
- Technologies: React Native, Redux, In-App Purchases (IAP), Axios, REST, Git.

Front-end Developer Jun 2023 - Aug 2023
Bitely *Istanbul, Turkey*

- Refactored and optimized client-side components to improve app responsiveness and server communication.
- Ensured seamless user interactions by adopting best practices in UI/UX and frontend performance tuning.
- Actively participated in agile sprints and collaborated with backend and design teams.
- Technologies: React, Redux, JavaScript (ES6), Axios, TailwindCSS, Git, Jira, BitBucket, Postman.

Front-end Developer (React Native React) Aug 2022 - May 2023
VAGA *Kocaeli, Turkey*

- Delivered maintainable and scalable UI components aligned with UX mockups and business requirements.
- Took part in the full development lifecycle of "Yawa White Label", a customizable e-commerce platform for supermarkets.
- Integrated API services using Axios and Swagger; emphasized code quality, reusability, and performance.
- Contributed to agile development workflows and participated in sprint planning and code reviews.
- Technologies: React Native, Redux, JavaScript (ES6), Bootstrap, CSS3, Git, Jira, BitBucket, Swagger.
